

What is a Regional Permit?

It is a one-stop-shop for permits to move non-reducible loads between and within member jurisdictions.

Where Can I Get A Permit?

Any jurisdiction representing either the origin/entry, destination/exit or pass through on the route may issue the permit.

What Routes Are Available?

Each jurisdiction has pre-approved routes which include all interstates plus other routes. A Regional Map is available from any member jurisdiction. New routes are added annually. Off-route approvals in origin and destination states are available upon request. Routes in non-member jurisdictions are to be handled separately.

How Long Is A Permit Valid?

Permits are issued for single trips not to exceed 5 consecutive days. The permit should not be requested more than five days prior to the effective date due to the potential of changes to the system (i.e. detours, maintenance activities, etc.).

Can A Permit Be Extended?

One extension (5 days) may be granted due to weather or road conditions or an equipment failure. A permit may also be amended due to equipment failure resulting in a change of vehicles. Extensions and amendments should be made by the issuing jurisdiction.

For routine permitting questions, contact:

State	Phone Number

Western Regional Permitting

**Problem
Solved...**

Envelope Vehicle

The following are non-reducible maximum dimensions for the Regional Permit:

Weight

- 600 pounds per inch width of tire.
- 21,500 pounds per axle.
- 43,000 pounds per tandem axle.
- 53,000 pounds per tridem (wheel base more than 8 feet and less than 13 feet).
- 160,000 pounds gross vehicle weight.
- A minimum of 5 axles when seeking permit for overweight.
- The weight on any group of axles shall be determined by the weight table shown in this brochure.

Length

- 110 feet overall.
- Does not include semi-trailer in excess of 53 feet carrying more than one item.
- Movement of unladen vehicles must comply with limitation of jurisdiction being traveled (i.e., loading jeep and/or booster onto trailer when semi-trailer exceeds 62 feet in Oregon).
- Both overall length and trailer length must be provided

Width - 14 feet

Height - 14 feet

Note: Excludes multi-jurisdiction permitting of manufactured homes.

How Are Fees Calculated?

Fees are calculated and collected by the issuing jurisdiction based on the fee schedules of each jurisdiction in route.
